Summary:

Magical lions, flying horses, evil white witches and talking animals; these are some of the amazing things in the world of Narnia. 'The Chronicles of Narnia' is a series of seven fantasy novels for children written by the British author C.S.Lewis. The 'Magician's Nephew' is the first book, chronologically, but was actually the sixth book written in the series of 'The Chronicles of Narnia'. This book brings the reader back to the very beginning of Narnia where we learn how Aslan created the world and how evil first enters it. The main characters Digory and Polly discover new, strange worlds by experimenting with magical rings. They have many adventures and encounter the evil white witch in a world called Charn.

Reasons of Recommendation:

After the huge success of the Hollywood blockbuster films 'The Lion, The Witch and The Wardrobe' and most recently 'The Voyage of The Dawn Treader', the set of seven books; 'The Chronicles of Narnia' have been given a fresh lease of life. There are many reasons I love this book. The first is that I love fantasy books; they are so creative and allow us, as children to escape into our own world of imagination.

Another reason to recommend this exciting story is the language is fairly easy to understand for younger readers like S1-S3. If anyone has seen any of the recent movies they should be curious about finding out how the world of Narnia began and are sure to enjoy this first part of the story.
